

Azlan Jamshed

Kolkata, West Bengal | +91 6388186900 | azlanjamsh@gmail.com | [LinkedIn](#) | [Portfolio](#)

Summary-

Full Stack Developer with expertise in building scalable web applications using the MERN stack and modern web technologies. Skilled in developing responsive user interfaces, REST APIs, real-time applications, and full-stack solutions. Passionate about solving real-world problems through clean, maintainable, and efficient code.

Skills-

Programming Languages: JavaScript, TypeScript, Python
Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, PostgreSQL
Tools & Technologies: Git, GitHub, VS Code, Chrome DevTools, Postman, Socket.IO
Soft Skills: Problem-solving, Debugging, Team Collaboration, Communication, Quick Learner

Experience-

- Frontend Developer— ELIX** December 2025 - May 2026
React.js, Next.js, Tailwind CSS, TypeScript
 - Developed the frontend for ELIX Arena, a real-time competitive learning platform for coding, aptitude, and technical skill assessments.
 - Developed responsive and scalable user interfaces using React.js, Next.js and Tailwind CSS
 - Built reusable UI components and maintained a modular frontend architecture to improve development efficiency.
 - Integrated REST APIs and collaborated closely with backend developers to deliver real-time features and seamless user experiences.
 - Optimized application performance, responsiveness, and accessibility across multiple devices and browsers.
- Frontend Developer (with Backend Exposure) — Gen2De** July 2025 – December 2025
React.js, Tailwind CSS, Node.js, Express.js, MongoDB
 - Built responsive and reusable web interfaces using React.js and Tailwind CSS.
 - Integrated REST APIs and optimized frontend data fetching for improved user experience.
 - Contributed to backend development using Node.js, Express.js, and MongoDB, implementing CRUD operations and API endpoints.
 - Collaborated with cross-functional teams using Git/GitHub in an agile development environment.
 - Enhanced application performance, responsiveness, and maintainability through clean, modular code.

Projects-

- Quiz Arena (Real-Time Quiz Platform)**
 - Developed a full-stack real-time quiz platform supporting multiplayer quiz sessions with live leaderboards and instant score updates.
 - Implemented secure user authentication and role-based access using JWT.
 - Built REST APIs for quiz management, student participation, results, and leaderboard generation.
 - Integrated Socket.IO for real-time communication, live quiz events, timers, and result synchronization.
- School Management System (In Progress)**
 - Developing a full-stack web application using MongoDB, Express.js, React.js, and Node.js.
 - Building responsive frontend interfaces using React and Tailwind CSS.
 - Creating backend APIs with Node.js and Express.js for handling student and admin data.
 - Working on CRUD operations and integrating APIs with frontend components.
 - Following component-based architecture and ensuring scalable code structure.

Education-

- Bachelor of Science in Information Technology (B.Sc. IT)
Maulana Abul Kalam Azad University of Technology (MAKAUT)
Nadia, West Bengal
CGPA: 8/10

Certifications-

- [React – Complete Developer Course with Hands-On Projects](#)
Udemy | 2025
- [Node.js – All You Need to Know with Practical Project](#)
Udemy | 2025
- Data Analytics Job Simulation
Deloitte (Forage) | 2025
